General Terms and Conditions:

1. The terms and conditions of this quotation shall apply to any purchase order submitted by the Customer ("Customer") pursuant hereto and shall form the terms and conditions of the purchase order upon acceptance of such purchase order by Plas-Tech Inc. ("Plas-Tech Inc."). Where the customer's order, or terms and conditions on that order, are conflicting with Plas-Tech Inc.'s terms and conditions, Plas-Tech Inc.'s terms and conditions shall take precedence unless expressly agreed to by Plas-Tech Inc. in each instance in writing.
2. Plas-Tech Inc. does not imply that the product provided is suitable or fit for any particular purpose, and it is the Customer's responsibility to ensure that the material(s) used meet any regulatory requirements and are tested for use in the customer's application, for the purpose of health, safety, temperature, and any other relevant conditions.
3. Any claims due to discrepancies in count, defectiveness, or process must be made within ten days from receipt of shipment. Defective materials are not to be returned unless Plas-Tech Inc. has had an opportunity to inspect samples and issue a RMA (Return Materials Authorization) number.
4. Custom colors will include preparation of a sample for Customer approval, when applicable. Colors are subject to some tolerance, and the actual color of the final product may vary slightly from the sample.
5. Prices quoted herein are subject to change from time to time, with the exception of orders already received and accepted by Plas-Tech Inc.. Plas-Tech Inc. will advise of any price changes upon customer request.
6. Plas-Tech Inc. assumes responsibility for defective parts only to the extent of the actual value of the parts supplied by Plas-Tech Inc.. This does not include any devices attached thereto subsequently by the customer or others. Plas-Tech Inc. does not pay claims for labor charges or damages incurred by the customer as a result of the defective condition of the parts or processes.
7. Agreements, orders, deliveries, and sales, are subject to accidents, strikes, and other delays beyond our control.
8. Customer agrees that Plas-Tech Inc. shall not be liable for any business interruption, loss of income, or other similar damages, whether suffered by the Customer or any other person, which may result from delays in the delivery and shipment of products.
9. Customer shall provide all designs, specifications, data, and other materials and intellectual property as Plas-Tech Inc. shall require in order to complete purchase orders and licenses Plas-Tech Inc. to use such intellectual property for the limited purpose of satisfying such purchase orders. The customer is design responsible and shall indemnify Plas-Tech Inc. for any claims, damages, costs, or proceedings against or incurred by Plas-Tech Inc. or others which are directly or indirectly caused by any flaw, limitations, or error in the design, application, suitability specifications, data, plan, sketch, document, or other materials or intellectual property provided by Customer or other non Plas-Tech Inc. party.
10. This quotation and any purchase order shall not be assigned by either party without the other's prior written consent.
11. Tooling will be stored by Plas-Tech Inc. for a maximum of one year from the most recent production order. After this period, at Plas-Tech Inc.'s discretion, tooling may be returned to customer or destroyed, per customer's instructions. Plas-Tech Inc. will not destroy any tooling without advising customer, unless customer is unreachable (eg. no longer in business).
12. Plas-Tech Inc. takes measures to protect any Customer tooling maintained on Plas-Tech Inc.'s property. However, all such tooling which is owned by the Customer is to be insured by the Customer, if the Customer deems necessary.
13. Plas-Tech Inc. performs design work based on Customer's instruction, and we understand that the Customer has investigated any copyright or patent infringement for any parts we make based on such request. Plas-Tech Inc. does not perform any patent or copyright searches, and customer assumes all liability for any claims. Customer agrees to indemnify and save Plas-Tech Inc. harmless from all costs, disbursements, expenses (including legal fees on a solicitor and client basis), losses, damages, liabilities of whatever kind and nature relating to or in connection in any manner with our or the Customer's infringement of patents, industrial designs, trademarks, or any other intellectual property of any kind owned or licensed by any person.
14. Plas-Tech Inc. may employ production techniques and use equipment, tooling, fixturing, and documentation which is proprietary to Plas-Tech Inc., will remain the property of Plas-Tech Inc., and will not be disclosed to the Customer. Only the equipment, tooling, and fixturing specifically itemized in our quotation, and purchased by the Customer, is the property of the Customer, and will be returned to the Customer upon request.
15. While we perform regular maintenance on our tooling (molds, dies, trim fixtures), these tools may have a limited lifetime, and may need to be repaired or replaced after some number of operations, at the customer's expense. Plas-Tech Inc. will advise you of the estimated life of the tool(s) upon completion of the design.
